

HOA Disputes

Few types of cases engender more passion and emotion than do cases involving property ownership or the rights of a property owner to modify or make certain use of their property. Thorpe Shwer is well-equipped to handle even the most complicated issues confronting HOA boards and homeowners. Our goal is to assist our HOA clients in achieving a speedy, efficient resolution of conflict when possible, while retaining the will to initiate litigation when doing so is in the best interest of the client. In representing our HOA clients, our attorneys seek to ease the burden that comes with conflict and litigation, with a keen recognition that those serving on the boards of their communities are often doing so on a volunteer basis.
