Thorpe Shwer Wins Summary Judgment for Client and Obtains Attorney Fee Award

Thorpe Shwer attorneys Sara Witthoft and Matt St. Martin recently obtained summary judgment on behalf of an executive of a medical billing company in the Superior Court of Maricopa County, Arizona. Plaintiff alleged that Thorpe Shwer's client tortiously interfered with his business expectation, aided and abetted the conversion of his property, and intentionally inflicted emotional distress upon Plaintiff. After more than a year of litigation and strategic handling of the case, which the Court ultimately found lacked merit entirely, Thorpe Shwer obtained dismissal of all of Plaintiff's claims with prejudice. The Court also determined that the client was entitled to an award of his reasonable attorney fees. Sara and Matt were assisted by paralegal Carmen Boubek.
